

# **YOKOHAMA DANCE COLLECTION EX**

## **20<sup>th</sup> Anniversary**

We are pleased inform you that Yokohama Dance Collection will celebrate 20th anniversary on next 2015. This annual dance festival was started in 1996 to become a source of creativity to young talented choreographers. Since 2003, it has been held between every January to February at Yokohama Red Brick Warehouse to discover new talented young choreographers and popularize the dance platform.

Currently, Yokohama Dance Collection is the only international choreographic competition in Japan and number of entries coming from around Asia. Thankfully, we have been supported by many international guests and build the network with overseas festivals and theaters. We believe that building the network with world dance platform is letting opportunities to young artists and grow the dance scene. Yokohama Dance Collection is aiming to nurture young artists and popularize the dance platform.
